RE: Comments; Technical Memorandum No. 1 to Industrial Area Surface Water and Sediment Sampling Plan, RFI/RI Workplan (Operable Unit No. 12), October, 1994

Dear Mr. Slaten,

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division (the Division) hereby formally submits our comments on the subject document.

A draft of the comments were provided during the comment resolution meeting of December 7, 1994. Since no changes have been made to the comments since the meeting, DOE's efforts to respond to the draft comments should not be affected by this formal transmittal.

As discussed at the meeting, we are eager to learn how DOE plans to modify or accelerate implementation of the plan with respect to the need for ditch maintenance. As a seasonal deadline for maintenance work is rapidly approaching, please advise the Division of your intended course of action.

If you have any questions, please contact Harlen Ainscough of my staff at 692-3337.

Sincerely,

Joe Schieffelin, Unit Leader
Rocky Flats Unit
Hazardous Waste Control Program
